

Driving Health Equity Through Our US Community Investments

Within **Communities**, on behalf of **Patients**, and in partnership with **Employees**, our community investments support our AstraZeneca values by:

Advancing health equity, **improving** access to care, and **strengthening** healthcare ecosystems

Driving innovation in science and making science **accessible** through Science, Technology, Engineering and Mathematics education

Strengthening the communities where we live and work

Accelerate Change Together (ACT) on Health Equity

Our ambition is to achieve health equity for patients and employees with an emphasis on those from historically excluded and disenfranchised populations. As part of this ambition, we are transforming patient outcomes by supporting community collaborations centered on equity.

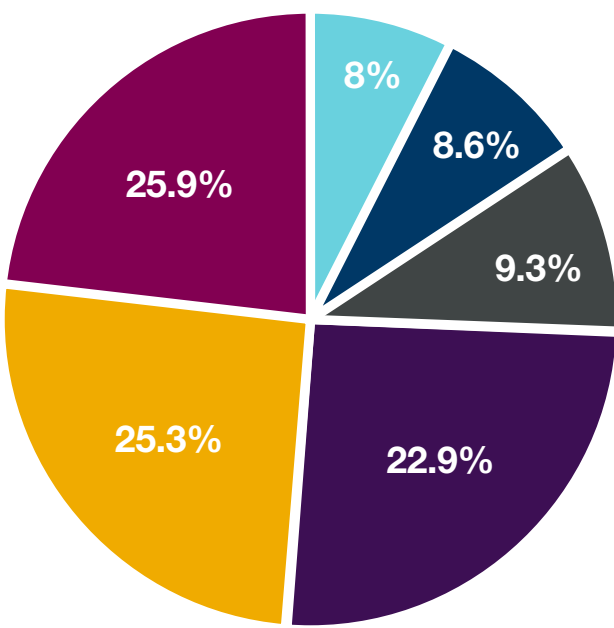

Addressing Social Determinants of Health (SDoH) and Advancing STEM Through Local and Regional Programming

Community Solutions Challenge

BY THE NUMBERS

\$3.7M+ in contributions provided to

160+ awardees since 2021 to date through our CSC program, including

Creating Lasting Impact

Girls of color are often overlooked in STEM programs, and the funding provided from AstraZeneca has been truly transformative for our participants. We have seen a 35% increase in STEAM Education and a 23% increase in Workforce Readiness.”

Femergy
GHRO Your Future
CSC Awardee

We have delivered 506,900 made-from-scratch, medically tailored meals to the homes of 3,018 individuals and their families impacted by critical and chronic illnesses. 73% reported decreased hospitalizations as a result of our meals, and 60% said that receiving our meals has decreased their concern about having enough food for themselves and their families.”

Transforming Patient Outcomes

For 20 years, the African American Wellness Project has been working to address the implicit bias in the healthcare system. Our mission is to care for people of color by guiding them through the system and taking charge of the care they receive.”

Dr. Michael Lenoir, MD
Founder of AAWP
NSC Awardee

The NCCU Community Nutrition Clinic will provide a holistic approach to improving human condition of underserved communities by providing nutrition assessment, intervention and education. In partnering with AstraZeneca on this united front against health disparities, we aim to prevent and reduce factors which contribute to adverse chronic health conditions.”
