

## 2023 Community Health Grant Awardees

Recipient Organization	Initiative Description	Grant Amount
<b>Camino Health Center</b> [Camino Community Development Corp.] (Charlotte, NC)	To expand the focus of its <i>Camino Vida</i> program to address obesity for uninsured Latinos in Mecklenburg County and support patients in developing nutritional habits and patterns of exercise that promote lifestyle changes and reduce the need for medical intervention through culturally sensitive nutrition and fitness programming.	\$120,000
<b>Central Oklahoma American Indian Health Council, Inc. dba Oklahoma City Indian Clinic (OKCIC)</b> (Oklahoma City, OK)	To pilot an initiative to provide Continuous Glucose Monitoring (CGM) technology to eligible American Indian patients with diabetes in Central Oklahoma with the aim of improving blood glucose control and preventing and reducing complications from diabetes.	\$120,000
<b>Charitable Pharmacy of CentralOhio</b> (Columbus, OH)	To continue to provide quality pharmacy services, health education, access to free healthy food and connections to wrap around services to reduce the identified risk factors of health inequities, poverty and food insecurity for underserved, low-income patients in Franklin County, and further increase access to its food pantry and other community resources through Community Health Workers.	\$120,000
<b>Good News Clinics, Inc.</b> (Gainesville, GA)	To provide increased clinical care and patient education for low-income, uninsured patients with diabetes through a focused clinical day each week; increase access to fresh produce for patients and the neighboring low-income community through the development of a Food as Medicine Market; and connect patients with social needs related to poverty to community resources in Hall County through a closed loop system of referrals supported by a Licensed Clinical Social Worker.	\$120,000
<b>HealthVisions Midwest</b> (Hammond, IN)	To implement an evidence-based, multicultural, bilingual, diabetes self-management education curriculum, to help reduce the risk for diabetes complications and improve quality of life among low-income, racial and ethnic minority populations with pre-diabetes or diabetes in Lake County, Indiana.	\$120,000
<b>The Wellness Coalition</b> (Montgomery, AL)	To support its founding program, <i>Wellness Case Management</i> , which aims to help improve health behaviors and clinical outcomes for individuals at risk for chronic disease who live in underserved communities in Central Alabama and have little or no health insurance. Through the program, Navigators provide outreach, referral acceptance and services, including linkages to a medical home; assistance with health insurance applications; access to free/low-cost medications and community resources; and chronic disease education.	\$120,000
<b>2023 Community Health Grant Award Total</b>		<b>\$720,000</b>
